## Product Description

### Customized Portable Fuel Supply Station with Sandblasted Tank Surface Treatment

#### Product Description:

In addition to the tank itself, the Container Fuel Station comes with a variety of tank accessories including a manhole cover, emergency valve, level gauge, and discharge valve. These accessories are essential for safe and efficient fueling operations, making the Container Fuel Station an ideal choice for those looking for a reliable and safe Mobile Oil Supply Station.

The Container Fuel Station is available in a variety of colors, allowing you to customize the station to fit your specific needs and preferences. Whether you are looking for a bold and eye-catching design or a more subtle and understated look, the Container Fuel Station has you covered.

Overall, the Container Fuel Station is an excellent choice for those in need of a Mobile Oil Supply Station. With its durable construction, essential tank accessories, and customizable design, this station is sure to meet all of your fueling needs.

#### Applications:

The portable fuel supply station has a capacity of 50m<sup>3</sup>, which provides ample storage for fuel to meet the needs of your business. The tank diameter is 2700mm, making it easy to transport and set up in any location. The Virette A1 also comes with a range of tank accessories including a manhole cover, emergency valve, level gauge, and discharge valve.

The Virette A1 Container Fuel Station is suitable for a range of applications. It can be used in construction sites, mining areas, agricultural fields, and other remote locations where fuel is required. It is also perfect for businesses that require a portable fuel supply station to keep their operations running smoothly.

The Virette A1 Container Fuel Station can be used in emergency situations where fuel is required urgently. It can be easily transported to the affected area and set up quickly to provide fuel to those in need.

The skid-mounted fuel station is also ideal for use in areas where traditional fuel stations are not available or accessible. It can be set up in a variety of locations, making it a versatile and valuable asset for any business or organization.

In conclusion, the Virette A1 Container Fuel Station is a reliable, efficient, and portable fuel supply station that is perfect for a wide range of application occasions and scenarios. Its self-priming pump, ample storage capacity, and range of tank accessories make it an ideal choice for businesses and organizations that require a portable fuel supply station.

#### Customization:

#### Packing and Shipping:

Product Packaging for Container Fuel Station:

The container fuel station will be packed in a sturdy wooden crate to ensure safe transportation.

All components will be securely fastened and protected with foam padding.

The crate will be labeled with the product name, dimensions, weight, and handling instructions.

Shipping Information:

The container fuel station will be shipped via freight carrier.

The shipping cost will be calculated based on the delivery location and weight of the crate.

The estimated delivery time will be provided by the carrier and communicated to the customer.

The customer must be present to sign for the delivery and inspect the package for any damages or defects.
