Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: A1

Product Specification

- Tank Type: Horizontal
- Pump: Self-priming Pump
- Tank Thickness: 14mm
- Tank Diameter: 2700mm
- Flow Rate: 50m³/h
- Color: Customized
- Material: Carbon Steel
- Tank Shape: Cuboid
- Highlight: horizontal tank container fuel station, container fuel station 2700mm dia, 2700mm dia mobile gasoline station

Product Description

Carbon Steel Container Fuel Station with Horizontal Tank Type and 2700mm Tank Diameter

Product Description:

With a capacity of 50m³, this fuel station on containerized base is perfect for businesses that require large amounts of fuel storage. The tank shape is cuboid, which allows for efficient use of space and easy installation on the container base. The material used for the tank is high-quality carbon steel, which guarantees durability and long-lasting performance. The tank thickness is 14mm, which ensures that it can withstand rough handling and extreme weather conditions.

The tank surface treatment is sandblasting and painting, which provides protection against corrosion, rust, and other forms of damage. This ensures that the fuel station remains in top condition for years to come, even in harsh environments. This fuel station on containerized base is perfect for businesses that require a reliable and efficient fuel storage solution that can be easily transported and installed at their desired location.

This skid-mounted fuel station is designed to be easily transported and installed, making it the perfect choice for businesses that require a flexible and mobile fuel storage option. The container base ensures easy transportation and installation, while the skid-mounted design allows for easy loading and unloading of fuel.

In summary, our Container Fuel Station is the perfect solution for businesses that require a reliable and efficient fuel storage option. With its large capacity of 50m³, cuboid tank shape, high-quality carbon steel material, 14mm tank thickness, and sandblasting and painting surface treatment, this skid-mounted fuel station provides a mobile oil supply station that is durable, efficient, and easy to install and transport. Get yours today and enjoy the benefits of a reliable and efficient fuel storage solution!

Applications:

The Virette A1 has a large capacity of 50m³, which makes it ideal for use in various applications. It is perfect for use in remote locations, military camps, construction sites, and other areas that require a reliable fuel source. The tank length of 11600mm is sufficient to store a considerable amount of fuel, thereby reducing the need for frequent refueling.

The Virette A1 is a versatile product that is suitable for a wide range of occasions and scenarios. It is perfect for use in emergency situations, where there is an urgent need for a Mobile Oil Supply Station. It can also be used in areas where there is no access to a permanent fuel station.

The Virette A1 is available in a range of customized colors, making it easy to match with the existing environment. This feature makes it ideal for use in areas where aesthetics is a consideration.

In conclusion, the Virette A1 is a reliable and efficient Tank Containerized Refuel Facility that can be used as a Mobile Oil Supply Station. Its unique features, such as the self-priming pump, carbon steel material, and large capacity, make it ideal for use in various applications. Its versatility makes it a valuable asset in emergency situations or areas without access to a permanent fuel station. Its customized color options make it a perfect fit for any environment.

Customization:

Customize your Virette A1 Container Fuel Station to meet your specific needs with our product customization services. Our Mobile Oil Supply Station, Portable Fuel Supply Station, and Fuel Station On Containerized Base can be customized to include:

Brand Name: Virette

Model Number: A1

Place of Origin: China

Tank Diameter: 2700mm

Tank Surface Treatment: Sandblasting, Painting

Pump: Self-priming Pump

Color: Customized

Flow Rate: 50m³/h

Our team of experts will work with you to ensure that your customized Container Fuel Station meets your specific requirements. Contact us today to get started!

Packing and Shipping:

Product Packaging:

The container fuel station will be packed in a sturdy wooden crate to ensure safe transportation.

The crate will be labeled with the product name, dimensions, and weight.

Inside the crate, the product will be secured with foam and other protective materials to prevent any damage during shipping.

Shipping:

The container fuel station will be shipped via a reliable carrier service.

Shipping costs will be calculated based on the distance and delivery location.

Customers will be provided with a tracking number to monitor the shipment status.

Delivery times may vary depending on the destination, but an estimated delivery date will be provided to the customer.

FAQ:

Q: What is the brand name of this fuel station?

A: The brand name is Virette.

Q: What is the model number of the fuel station?

A: The model number is A1.

Q: Where is this fuel station made?
A: The fuel station is made in China.
Q: What types of fuel can be stored in the fuel station?
A: The fuel station is designed to store diesel, gasoline, and kerosene.
Q: What is the capacity of the fuel station?
A: The fuel station has a capacity of 20,000 liters.
