

Accuracy $\pm 0.5\%$ Compressed CNG Filling Pump With 4m Hose Length

Our Product Introduction

For more products please visit us on refueling-equipment.com

Basic Information

- Place of Origin: China
- Brand Name: Virette
- Delivery Time: 20 - 30 days

Product Specification

- Humidity Range: $\leq 95\%$
- Power Supply: AC 220V/50Hz
- Model: CD-100
- Total Price Range: 0.01-999999.99
- Unit Price Range: 0.01-99.99
- Hose Length: 4m
- Accuracy: $\pm 0.5\%$
- Display: LCD
- Highlight: compressed cng filling pump,
compressed gas pump cng,
4m hose gas pump cng

Product Description

Accuracy $\pm 0.5\%$ Compressed Natural Gas Dispenser with 4m Hose Length

Product Description:

The CNG Fuel Dispenser comes equipped with an easy-to-read LCD display that provides real-time information about the fueling process. This display makes it easy for drivers to monitor the progress of their fueling and ensure that they are filling up their tanks to the desired level.

The CNG Gas Dispenser is built to withstand a wide range of temperatures, with a temperature range of -25°C to $+55^{\circ}\text{C}$. This means that it can be used in a variety of climates and weather conditions, making it a versatile and reliable choice for CNG fueling stations.

The CNG Fuel Dispenser is available in both single and dual nozzle configurations, making it easy for fueling stations to customize their setup to meet their specific needs. Whether you need to fuel one vehicle at a time or multiple vehicles simultaneously, the CNG Gas Dispenser has you covered.

The unit price range for the CNG Fuel Dispenser is between 0.01 and 99.99, making it an affordable choice for CNG fueling stations of all sizes. And with a total price range of 0.01-999999.99, the CNG Gas Dispenser is a cost-effective investment that will provide reliable performance for years to come.

Overall, the CNG Gas Dispenser is a top-quality Natural Gas Dispensing System that is designed to provide a seamless fueling experience for drivers of CNG-powered vehicles. With its durable construction, easy-to-read LCD display, and customizable nozzle configuration, the CNG Fuel Dispenser is the perfect choice for any CNG fueling station looking to provide a reliable and efficient fueling solution.

Features:

Product Name: CNG Gas Dispenser

Hose Length: 4m

Temperature Range: -25°C To $+55^{\circ}\text{C}$

Nozzle: Single Or Dual

Total Price Range: 0.01-999999.99

Unit Price Range: 0.01-99.99

Get your CNG Fill-Up Machine today! This CNG Fuel Dispenser comes equipped with a hose length of 4m, temperature range of -25°C to $+55^{\circ}\text{C}$, and a single or dual nozzle option. The total price range is between 0.01-999999.99 and the unit price range is between 0.01-99.99. Don't miss out on this convenient and reliable CNG Fill-Up Machine!

Technical Parameters:

Temperature Range	-25°C To $+55^{\circ}\text{C}$
Hose Length	4m
Nozzle	Single Or Dual
Accuracy	$\pm 0.5\%$
Communication Interface	RS485/RS232
Working Pressure	20MPa
Total Price Range	0.01-999999.99
Unit Price Range	0.01-99.99
Flow Rate	15-25L/min
Power Supply	AC 220V/50Hz

Applications:

The Virette CNG Gas Dispenser has a power supply of AC 220V/50Hz, making it compatible with most standard electrical outlets.

Additionally, its communication interface is RS485/RS232, allowing for seamless integration with other equipment and systems. With a working pressure of 20MPa, this product provides a reliable and consistent flow of natural gas to your vehicle.

Whether you're a private vehicle owner or a fleet manager, the Virette CNG Gas Dispenser is an ideal solution for your refueling needs.

Its flow rate of 15-25L/min ensures that your vehicle is filled up quickly and efficiently, allowing you to hit the road as soon as possible.

Furthermore, this product is suitable for use in a range of different scenarios and occasions. For example, it can be installed at CNG filling stations, allowing customers to easily refuel their vehicles. It can also be used in private garages, providing a convenient and cost-effective way for vehicle owners to refuel at home.

The Virette CNG Gas Dispenser is also designed to operate in a range of different environmental conditions. Its humidity range of $\leq 95\%$ means that it can be used in areas with high levels of moisture, making it suitable for use in coastal regions and other humid environments.

In summary, the Virette CNG Gas Dispenser is a reliable and efficient product that is perfect for anyone looking for a natural gas fuel pump or CNG fill-up machine. With its fast delivery time, compatibility with standard electrical outlets, and seamless integration with other systems, this product is a must-have for anyone looking to streamline their refueling process.
