

90-150L/Min Oil Dispensing Station 1000 Liter Automated Fuel Dispensers

Our Product Introduction

For more products please visit us on refueling-equipment.com

Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Medium: Lubricating Oil
- Temperature: -40~55°C
- Delivery Rate: 5 ~ 90L/min; 90~150L/min; 150~250L/min
- Structure: Single-stage Pump
- Vacuum: 0.04Mpa
- Application: Petro, Diesel Etc
- Flow Rate: 5-50L/Min Or 5-90L/Min
- Tank: 1000L
- Highlight: 150l/min oil dispensing station,
oil dispensing station 1000 liter,
1000 liter automated fuel dispensers

Product Description

90-150 L/Min Fill Lubricating Oil Dispenser with 1000L Tank

Product Description:

The Fuel Dispenser is suitable for a range of applications, including dispensing of petro and diesel. It is also compatible with other types of fuels, making it a versatile option for any business that requires a gasoline dispenser. The dispenser is designed to handle high volumes of fuel, making it ideal for busy gas stations and industrial facilities that require a high throughput of fuel.

The Fuel Dispenser features an Automatic Nozzle TD-20A, which is designed to provide a reliable and consistent flow of fuel. The nozzle is easy to use and features a trigger lock for added convenience. The nozzle is also equipped with a spill-proof system that helps to prevent fuel from spilling onto the ground, ensuring a safe and clean environment.

The Fuel Dispenser has a working pressure of 0.2 MPa, which ensures that fuel is delivered at the correct pressure for optimal performance. The dispenser is also capable of working in a wide range of temperatures, from -40 to 55°C. This makes it suitable for use in extreme weather conditions, ensuring that fuel can be dispensed reliably, no matter the environment.

In summary, the Fuel Dispenser is a reliable and efficient solution for gasoline dispensing systems. With its robust construction, versatile applications, and high throughput capabilities, it is an ideal choice for gas stations, airports, and industrial facilities. Its Automatic Nozzle TD-20A ensures a consistent flow of fuel, while its working pressure and temperature range make it suitable for use in a wide range of environments. Overall, the Fuel Dispenser is a must-have for any business that requires a reliable and efficient gasoline dispensing system.

Features:

Product Name: Fuel Dispenser

Automatic Nozzle: TD-20A

Medium: Lubricating Oil

Application: Petro, Diesel Etc

Hose: 3/4" 4M

Warranty: 12 Months

This Diesel fuel dispenser is perfect for dispensing diesel fuel quickly and easily. With the automatic nozzle TD-20A, this Diesel Fuel Dispenser is ideal for use with lubricating oil. Its versatile application makes it ideal for use with Petro, Diesel Etc. With a hose measuring 3/4" and 4M long, this Diesel Fuel Dispenser is perfect for use in a variety of settings. And with a 12-month warranty, you can trust in the quality and reliability of this Diesel Fuel Dispenser.

Technical Parameters:

Product	One Product Or Two Product
Voltage	220VAC
Vacuum	0.04Mpa
Warranty	12 Months
Register Range	0.00~999999.99 L
Tank	1000L
Working Pressure	0.2 MPa
Delivery Rate	5 ~ 90L/min; 90~150L/min; 150~250L/min
Medium	Lubricating Oil
Hose	3/4" 4M

Fuel dispenser, Diesel fuel dispenser, Gasoline Dispensing System

Applications:

This fuel dispenser is most suitable for dispensing diesel fuel. With its delivery rate of 5 ~ 90L/min; 90~150L/min; 150~250L/min, it can be used in various scenarios. For instance, it can be used in gas stations, transportation companies, construction sites, and other places where diesel fuel is needed.

The Virette Fuel Dispenser is designed to withstand tough and harsh environments, making it a reliable choice for customers. It has a working pressure of 0.2 MPa, which ensures that it can handle the pressure of the fuel being dispensed without any issues.

The automatic TD-20A nozzle ensures that fuel is dispensed accurately and efficiently. It also has a high level of safety, preventing any fuel spillages or accidents. This makes it a great choice for customers who value safety and efficiency.

Overall, Virette Fuel Dispenser is a high-quality and reliable fuel dispenser that is suitable for different application occasions. It is most suitable for dispensing diesel fuel in various scenarios. With its high delivery rate, automatic nozzle, and reliable design, it is a great choice for customers who value safety, efficiency, and quality.

Customization:

Packing and Shipping:

The fuel dispenser product will be securely packaged in a cardboard box with protective foam inserts to prevent any damage during transportation. The box will also be labeled with handling instructions and product information.

Shipping:

Shipping will be arranged via a reputable courier service, such as FedEx or UPS, to ensure timely and safe delivery. The product will be shipped from our warehouse located in [insert location] and delivery times will vary depending on the destination. Customers will receive a

tracking number to monitor the progress of their shipment.
