Basic Information

- Place of Origin: China
- Brand Name: Virette
- Price: 2200-5000USD
- Delivery Time: 20 days

Product Specification

- Nozzle Type: Automatic
- Material: Plastic
- Voltage: 220V
- Hose Length: 6 Feet
- Safety Features: Overfill Protection, Automatic Shut-off
- Color: White
- Certifications: UL Listed, CSA Certified
- Capacity: 1000L - 6000L
- Highlight: **Automatic Shut Off Mini Fuel Station,
6ft Hose Mini Fuel Station,
Portable Refueling Equipment**

Product Description

CSA Certified White Plastic mobile fuel station with 6ft Hose and Automatic Shut off

Product Description:

One of the best features of the Mini Fuel Station is its impressive flow rate. It can pump fuel at a rate of 40-60L per minute, making it a fast and efficient choice for refueling. This makes it ideal for those who need to fill up their vehicles or equipment quickly. It is also equipped with an automatic shut-off feature that ensures safe and reliable operation.

Safety is a top priority when it comes to fuel dispensing, which is why the Mini Fuel Station is designed with several safety features. It has overfill protection that prevents spills and ensures that the tank is not overfilled. This feature is crucial for preventing damage to the environment and avoiding costly clean-up procedures. The automatic shut-off feature also helps to prevent overfilling and ensures that the fuel does not overflow.

The Mini Fuel Station is also very easy to use. It has a compact and portable design that makes it easy to move around. It is perfect for those who need to refuel in remote locations or for those who want to have a backup fuel source. It is also very user-friendly, with simple controls that make it easy to operate.

Overall, the Mini Fuel Station is an excellent choice for anyone who needs a compact and portable fuel dispenser. It is made of high-quality materials, has an impressive flow rate, and is equipped with several safety features. It is easy to use and is suitable for various types of fuel, including gasoline, diesel, and new energy.

Features:

Product Name: Mini Fuel Station

Model: C1

Dimensions: Customized

Power Source: Electric

Flow Rate: 40-60L Per Minute

Application: Gasoline, Diesel, New Energy

Features:

Fuel Mobile Dispenser

Mobile Fuel Station

Mobile Gas Station

Technical Parameters:

Capacity	1-8CBM
Nozzle Type	Automatic
Application	Gasoline, Diesel, New Energy
Dimensions	Customized
Certifications	UL Listed, CSA Certified
Safety Features	Overfill Protection, Automatic Shut-off
Flow Rate	40-60L Per Minute
Voltage	220V
Color	White
Material	Plastic

Applications:

The Virette Mini Fuel Station has a model number of C1 and comes with a capacity of 1-8CBM. This makes it a great option for small businesses, construction sites, and other scenarios where fuel is needed on the go. The automatic nozzle type makes it easy to use, and the UL Listed and CSA Certified certifications ensure that it meets the highest standards of quality and safety.

One of the best things about the Virette Mini Fuel Station is its versatility. It can be used in a variety of settings, including remote work sites, agricultural operations, and even in emergency situations. Because it is mobile, it can be easily transported to wherever it is needed. This makes it a convenient and practical choice for many different businesses and organizations.

Another great feature of the Virette Mini Fuel Station is its safety features. The overfill protection and automatic shut-off mechanisms protect against spills and accidents, making it a safe choice for any application. Whether you are using it on a construction site or at a remote location, you can rest assured that this mini fuel station is designed with safety in mind.

In conclusion, the Virette Mini Fuel Station is a versatile and affordable option for businesses and organizations that need to fuel their vehicles or equipment on the go. With its various safety features and certifications, you can trust that it meets the highest standards of quality and safety. Whether you need it for a construction site, agricultural operation, or emergency situation, the Virette Mini Fuel Station is the perfect solution for your fueling needs.
