Basic Information

- Place of Origin: China
- Brand Name: Virette
- Price: 2200-5000USD
- Delivery Time: 20 days

Product Specification

- Color: White
- Dimensions: Customized
- Voltage: 220V
- Hose Length: 6 Feet
- Material: Plastic
- Model: C1
- Application: Gasoline, Diesel, New Energy
- Power Source: Electric
- Highlight: **economical mobile fuel station,
mobile fuel station 220v,
6 feet hose mini filling station**

Product Description

Economical C1 Electric Mobile Fuel Station / Mini Fuel Station with 220V Output and 6-Foot Hose

Product Description:

The Mini Fuel Station is powered by electricity, which makes it easy to use and environmentally friendly. It is compatible with different types of fuel, including gasoline, diesel, and new energy. This makes it a versatile product that is suitable for a wide range of applications. Whether you are running a small farm, a construction site, or a fleet of vehicles, the Mini Fuel Station can meet your fueling needs.

The Mini Fuel Station is designed to operate on a voltage of 220V, which is a standard voltage for most electrical outlets. This means that you can easily plug it in and start using it without any additional setup or installation. The product comes with a power cord that is long enough to reach most areas, which provides additional convenience.

The Mini Fuel Station is equipped with an automatic nozzle, which makes fueling quick and easy. The nozzle is designed to shut off automatically when the tank is full, which helps to prevent overfilling and spillage. This feature ensures that the fueling process is safe and efficient, and it helps to reduce the risk of accidents and environmental damage.

The Mini Fuel Station has a flow rate of 40-60 liters per minute, which is a high enough flow rate to fill most tanks quickly. This ensures that you can get your fueling done quickly and efficiently, which saves you time and money. The product is also designed to be durable and easy to maintain, which ensures that it will last for a long time and provide reliable performance.

In summary, the Mini Fuel Station is a Fuel Mobile Dispenser that provides a convenient and reliable way to dispense fuel. It is a mobile fuel station that is powered by electricity and compatible with different types of fuel. The product operates on a voltage of 220V and comes equipped with an automatic nozzle that has a flow rate of 40-60 liters per minute. The Mini Fuel Station is a versatile and efficient product that is perfect for a wide range of applications.

Features:

Product Name: Mini Fuel Station

Hose Length: 6 Feet

Capacity: 1-8CBM

Voltage: 220V

Flow Rate: 40-60L Per Minute

Color: White

This mobile fuel station is a compact and efficient Fuel Mobile Dispenser. The mini fuel station has a hose length of 6 feet and a capacity of 1-8CBM. It operates at a voltage of 220V and has a flow rate of 40-60L per minute. The white color gives it a sleek and modern look.

Technical Parameters:

Color	White
Nozzle Type	Automatic
Capacity	1-8CBM
Power Source	Electric
Flow Rate	40-60L Per Minute
Dimensions	Customized
Hose Length	6 Feet
Voltage	220V
Material	Plastic
Application	Gasoline, Diesel, New Energy

Applications:

The Mini Fuel Station is perfect for a wide range of product application occasions and scenarios. Here are some of the most common ones:

Fuel Mobile Dispenser: The Mini Fuel Station is perfect for use as a mobile fuel dispenser. It can be easily transported from one location to another, making it ideal for use in remote areas or for emergency fueling needs.

Mobile Gas Station: The Mini Fuel Station can also be used as a mobile gas station. It is compact and easy to set up, making it ideal for use in areas where a traditional gas station is not available.

Construction Sites: The Mini Fuel Station is perfect for use on construction sites. It can be used to fuel heavy machinery and equipment, and it is easy to move from one location to another as needed.

Farming: Farmers can also benefit from the Mini Fuel Station. It can be used to fuel tractors, harvesters, and other farming equipment, making it a valuable addition to any farm.

Remote Areas: The Mini Fuel Station is perfect for use in remote areas where traditional fueling stations are not available. It can be used to fuel boats, generators, and other equipment.

The Mini Fuel Station by Virette is reasonably priced, with prices ranging from 1000-5000USD. Delivery time is quick, with products typically arriving within 20 days of ordering. With a capacity of 1-8CBM and a voltage of 220V, the Mini Fuel Station is perfect for a wide range of fueling needs.

Customization:

Virette offers product customization services for our Mini Fuel Station, a versatile mobile fuel station that can be used as a mobile gas station. Our Mini Fuel Station is made from high-quality plastic and can be customized to fit your specific dimensions and capacity needs ranging from 1-8CBM. The Mini Fuel Station is designed to have a flow rate of 40-60 liters per minute and comes in a sleek white color. Our product customization services ensure that you receive a Mini Fuel Station that meets your requirements and specifications. Our Mini Fuel Station is manufactured in China and is available at a price ranging from 1000-5000USD. Our delivery time is approximately 20 days from the date of order. Contact us today to learn more about our product customization services and how we can tailor the Mini Fuel Station to meet your needs.

Packing and Shipping:

Product Packaging:

One Mini Fuel Station unit

One user manual

One power adaptor

Shipping:

Ships within 1-2 business days

Free standard shipping within the United States

International shipping available for an additional fee
