Basic Information

- Place of Origin: China
- Brand Name: Virette
- Price: 2200-5000USD
- Delivery Time: 20 days

Product Specification

- Dimensions: Customized
- Hose Length: 6 Feet
- Power Source: Electric
- Voltage: 220V
- Flow Rate: 40-60L Per Minute
- Material: Plastic
- Model: C1
- Capacity: 1000L - 6000L
- Highlight: 60L/Min Mobile Dispenser High Speed Diesel,
Diesel Mini Filling Station,
60L/Min Mini Filling Station

Product Description

Electric Low Consumption Mobile Fuel Dispenser for Convenient Refueling

Product Description:

The Mini Fuel Station is certified by UL Listed and CSA Certified, ensuring that it meets the highest standards of safety and reliability. This certification means that you can trust this mini fuel station to perform consistently and safely for years to come.

With its ability to handle gasoline, diesel, and new energy, the Mini Fuel Station can be used for a wide range of applications. Whether you need to fuel up your car, truck, or generator, this mini fuel station can get the job done.

The Mini Fuel Station comes with a 6-foot hose, providing ample reach to fuel up your vehicle. This hose is durable and flexible, making it easy to maneuver and use in tight spaces. Whether you're filling up your car or topping off your generator, this hose has you covered.

The C1 model of the Mini Fuel Station is designed for maximum efficiency and performance. With a flow rate of 40-60L per minute, this mini fuel station can quickly and easily refuel your vehicle, saving you time and hassle.

In summary, the Mini Fuel Station is a highly versatile and portable solution for refueling vehicles on the go. Whether you're in need of a mobile gas station for remote locations or emergency refueling, this mini fuel station is the perfect solution. With its certifications from UL Listed and CSA Certified, ability to handle gasoline, diesel, and new energy, 6-foot hose, and C1 model with a flow rate of 40-60L per minute, this mini fuel station provides reliable and efficient fueling for all your needs.

Features:

Product Name: Mini Fuel Station

Safety Features: Overfill Protection, Automatic Shut-off

Power Source: Electric

Flow Rate: 40-60L Per Minute

Capacity: 1-8CBM

Model: C1

This mobile fuel station, also known as a mobile gas station, is equipped with safety features such as overfill protection and automatic shut-off. It is powered by electricity and has a flow rate of 40-60 liters per minute. With a capacity of 1-8 cubic meters, this Mini Fuel Station model is the C1.

Technical Parameters:

| | |
|-----------------|---|
| Voltage | 220V |
| Material | Plastic |
| Nozzle Type | Automatic |
| Application | Gasoline, Diesel, New Energy |
| Capacity | 1-8CBM |
| Flow Rate | 40-60L Per Minute |
| Certifications | UL Listed, CSA Certified |
| Hose Length | 6 Feet |
| Power Source | Electric |
| Safety Features | Overfill Protection, Automatic Shut-off |

Applications:

The Virette Mini Fuel Station is perfect for a wide range of applications and scenarios. Here are some of the most common ones:

Construction Sites: With a capacity of up to 8CBM, the Virette Mini Fuel Station can easily meet the fuel needs of construction machinery and vehicles. Its compact size and electric power source make it easy to move around the site, while the overfill protection and automatic shut-off ensure safe and reliable refueling.

Farm and Ranch: Whether you need to refuel your tractors, trucks, or other equipment, the Virette Mini Fuel Station is the perfect choice. Its customizable dimensions allow you to fit it in any space, while the flow rate of 40-60L per minute ensures fast and efficient refueling.

Roadside Assistance: If you provide roadside assistance services, the Virette Mini Fuel Station can be a lifesaver. Its compact size and electric power source make it easy to transport to the location, while the overfill protection and automatic shut-off ensure safe and reliable refueling.

Marinas and Ports: Boats and other marine vessels require a reliable fuel source, and the Virette Mini Fuel Station can provide just that. Its customizable dimensions and flow rate of 40-60L per minute make it a great choice for marinas and ports of all sizes.

Remote Locations: When you need to refuel your vehicles in remote locations, the Virette Mini Fuel Station is the perfect solution. Its electric power source eliminates the need for a generator, while the overfill protection and automatic shut-off ensure safe and reliable refueling.

The Virette Mini Fuel Station is priced between 1000-5000USD, depending on the capacity and other features. The delivery time is around 20 days, and the product can be customized to meet your specific needs. With its compact size, electric power source, and safety features, the Virette Mini Fuel Station is the perfect choice for anyone who needs a reliable and convenient fuel source.

Customization:

Packing and Shipping:

Product Packaging:

The Mini Fuel Station will be carefully packaged to ensure its safe delivery to you. The package will include:

1 Mini Fuel Station unit

1 User Manual

Shipping:

Our standard shipping option will deliver your Mini Fuel Station within 5-7 business days. Shipping fees will apply and will be calculated at checkout. We also offer expedited shipping options for an additional fee.
