

Automatic Nozzle Fuel Dispensing Equipment For Lubricating Oil

Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Vacuum: 0.04Mpa
- Voltage: 220VAC
- Automatic Nozzle: TD-20A
- Medium: Lubricating Oil
- Register Range: 0.00~999999.99 L
- Application: Petro, Diesel Etc
- Working Pressure: 0.2 MPa
- Flow Rate: 5-50L/Min Or 5-90L/Min
- Highlight: automatic nozzle fuel dispensing equipment,
automatic nozzle fuel dispensing system,
lubricating oil fuel dispensing system

Product Description

Electric Fuel Dispenser with Automatic Nozzle for Lubricating Oil

Product Description:

The hose included with our fuel dispenser is a 3/4" 4M hose, ensuring that you have ample length to reach all of your dispensing needs. Additionally, our medium of choice for this dispenser is lubricating oil, ensuring that your fuel dispensing process is as smooth and seamless as possible.

Our tank for this fuel dispenser has a capacity of 1000L, ensuring that you have a large enough capacity to meet your fuel dispensing needs without having to constantly refill the tank. Additionally, our fuel dispenser comes with a 12-month warranty, giving you peace of mind and ensuring that you are covered in the unlikely event that something goes wrong.

Overall, our fuel dispenser is a top-of-the-line choice for any business in need of a reliable and efficient solution for their fuel dispensing needs. Whether you are in the business of selling gasoline or any other type of fuel, our petrol dispensing machine is the perfect choice to ensure that your fuel dispensing process is as seamless and efficient as possible.

Features:

Product Name: Fuel Dispenser

Hose: 3/4" 4M

Tank: 1000L

Vacuum: 0.04Mpa

Temperature: -40~55°C

Voltage: 220VAC

Used as Fueling Station Dispenser

Essential Fuel Dispensing Equipment

Can be installed at Fueling Station Dispenser

Technical Parameters:

Product	Diesel Fuel Dispenser
Automatic Nozzle	TD-20A
Application	Petro, Diesel Etc
Warranty	12 Months
Voltage	220VAC
Hose	3/4" 4M
Working Pressure	0.2 MPa
Register Range	0.00~999999.99 L
Tank	1000L
Temperature	-40~55°C

Applications:

The Fuel Dispenser is an essential product used in gas stations, petrol pumps, and fuel stations. It is used to dispense fuel such as gasoline, diesel, and ethanol. The Fuel Dispenser is designed to be user-friendly and easy to operate. It has a digital display that shows the amount of fuel dispensed and the total cost.

The Fuel Dispenser is suitable for a wide range of occasions and scenarios. It is perfect for use in gas stations, petrol pumps, and fuel stations where there is a high demand for fuel. The Fuel Dispenser is also ideal for use in fleets of vehicles, such as buses, trucks, and taxis, where fuel needs to be dispensed quickly and efficiently.

The Fuel Dispenser is designed to be durable and long-lasting. It is made from high-quality materials that are resistant to corrosion and wear and tear. The Fuel Dispenser is also easy to maintain and comes with a 12-month warranty.

In conclusion, the Virette Fuel Dispenser is an excellent fuel dispensing equipment that is suitable for use in a variety of occasions and scenarios. It is designed to be user-friendly, efficient, and durable. With its single-stage pump structure, the Fuel Dispenser can dispense one or two products, making it a versatile product that can be used in a wide range of settings.

Customization:

Our Virette brand gasoline dispensing system offers a range of customization services to meet your specific needs. Our petrol dispensing machines are made in China with high-quality materials and come with a delivery rate of 5 ~ 90L/min, 90~150L/min, and 150~250L/min. The hose size is 3/4" and 4M in length. You can choose between a one or two-product option for added convenience. Our automatic nozzle, the TD-20A, ensures easy and accurate fuel dispensing. The product can withstand temperatures as low as -40°C and as high as 55°C, making it perfect for any climate. Our diesel fuel dispenser is also available with the same customizable options. Trust our Virette brand for reliable and efficient fuel dispensing services.

Packing and Shipping:

Product Packaging:

Dimensions: 1300mm x 700mm x 2200mm

Weight: 350kg

Material: Steel

Packaging: Wooden crate

Shipping Information:

Shipping Method: Sea, Air, or Land transportation

Shipping Time: Depending on the destination and method of transportation

Shipping Cost: To be calculated based on the destination and method of transportation
