Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Delivery Rate: 5 ~ 90L/min; 90~150L/min; 150~250L/min
- Working Pressure: 0.2 MPa
- Product: One Product Or Two Product
- Temperature: -40~55°C
- Hose: 3/4" 4M
- Vacuum: 0.04Mpa
- Register Range: 0.00~999999.99 L
- Warranty: 12 Months
- Highlight: 150l/min gas station fuel pumps,
gas station fuel dispenser 150l/min,
0.04mpa vacuum gas station fuel dispenser

Product Description

Two Product Fuel Dispenser with 3/4 Hose and 0.04Mpa Vacuum

Product Description:

The Fuel Dispenser comes with an Automatic Nozzle (TD-20A) that ensures that the fuel is dispensed accurately and efficiently. The nozzle is designed to shut off automatically when the tank is full, which prevents fuel spillage and wastage. This feature makes the Fuel Dispenser an ideal choice for businesses that need to dispense fuel quickly and safely.

The Fuel Dispenser has a Single-stage Pump structure that ensures consistent performance and durability. The pump is designed to deliver high-speed fuel dispensing services without compromising on accuracy or safety. This feature makes the Fuel Dispenser an ideal choice for businesses that need to dispense large volumes of fuel quickly and efficiently.

The Fuel Dispenser is designed to dispense a variety of mediums, including lubricating oil, diesel fuel, and petrol. This feature makes it a versatile product that can be used in a wide range of applications. Whether you need a diesel fuel dispenser for a transport business or a petrol dispenser machine for a petrol station, the Fuel Dispenser is the perfect choice.

The Fuel Dispenser has a working pressure of 0.2 MPa, which ensures that it can deliver fuel at a high speed without compromising on safety. This feature makes it an ideal choice for businesses that need to dispense large volumes of fuel quickly and safely.

In conclusion, the Fuel Dispenser is a top-of-the-line product that delivers safe, accurate, and high-speed fuel dispensing services.

Whether you need a diesel fuel dispenser, a petrol dispenser machine, or a lubricating oil dispenser, the Fuel Dispenser is the perfect choice for your business. Its Automatic Nozzle (TD-20A), Single-stage Pump structure, and ability to dispense a variety of mediums make it a versatile and reliable product that can meet the needs of your business.

Features:

Product Name: Fuel Dispenser

Product: One Product Or Two Product

Application: Petro, Diesel Etc

Automatic Nozzle: TD-20A

Medium: Lubricating Oil

Flow Rate: 5-50L/Min Or 5-90L/Min

Our Fuel Dispenser is perfect for dispensing petrol, diesel fuel, and lubricating oil. With the option for one or two product dispensing and automatic nozzle TD-20A, our Diesel Fuel Dispenser can handle your fueling needs. Choose between a flow rate of 5-50L/Min or 5-90L/Min for efficient fueling.

Technical Parameters:

Flow Rate	5-50L/Min Or 5-90L/Min
Tank	1000L
Medium	Lubricating Oil
Register Range	0.00~999999.99 L
Automatic Nozzle	TD-20A
Warranty	12 Months
Voltage	220VAC
Vacuum	0.04Mpa
Application	Petro, Diesel Etc
Product	One Product Or Two Product

Applications:

Our Fuel Dispenser is perfect for a variety of applications, including pumping Petro, Diesel, and other fuels. Whether you're fueling up your personal vehicle or running a gas station, our dispenser is designed to meet your needs.

Our Fuel Dispenser is made with a Single-stage Pump, ensuring a smooth and efficient flow of fuel. And with a 12-month warranty, you can trust that our product will last.

Some scenarios where our Fuel Dispenser is perfect for use include gas stations, truck stops, and marinas. It's also a great option for businesses that have their own fleet of vehicles, such as delivery companies and taxi services.

When it comes to diesel fuel dispensers, our product is a top choice. It's efficient, reliable, and easy to use, making it a great addition to any business that needs to dispense diesel fuel.

Overall, if you're in need of a high-quality gasoline or diesel fuel dispenser, look no further than Virette. Our product is designed to meet your needs and exceed your expectations.

Customization:

Our Fueling Station Dispenser, also known as Gasoline Dispensing System or Diesel fuel dispenser, can be customized according to your specific needs. As a Virette brand product from China, it comes with a working pressure of 0.2 MPa and a 12-month warranty.

You can choose between a One Product or Two Product option, and select the Automatic Nozzle TD-20A. The delivery rate can range from 5 ~ 90L/min for regular use, or 90~150L/min and 150~250L/min for heavy usage.

Packing and Shipping:

Product Packaging:

The Fuel Dispenser is packaged in a sturdy cardboard box to ensure safe transportation.

The product is protected by foam inserts that keep it from moving around during shipping.

Shipping:

The Fuel Dispenser is shipped via standard ground shipping.

Shipping times may vary depending on location and shipping option chosen.

Customers will receive a tracking number once the product has been shipped.
