## Product Description

### Fully Enclosed Containerized Refueling Facility

#### Product Description:

The Container Fuel Station is equipped with a self-priming pump that is capable of delivering a flow rate of 50m<sup>3</sup>/h. This means that it can quickly and efficiently dispense fuel to vehicles and equipment, making it an ideal choice for use in construction sites, mining operations, and other industrial settings. The pump is designed to be easy to operate, with simple controls that allow users to adjust the flow rate and monitor fuel levels.

The tank shape of the Container Fuel Station is cuboid, which provides a compact and space-saving design that is easy to transport and install. The station is designed to be skid-mounted, which means that it can be easily moved from one location to another using a forklift or other heavy equipment. This makes it a highly versatile solution for mobile fuel supply, allowing it to be used in a variety of different settings.

The Container Fuel Station is available in a range of customized colors, allowing it to be easily matched to the branding or color scheme of your business. This makes it an ideal choice for companies that want to maintain a consistent visual identity across all of their equipment and assets.

In summary, the Container Fuel Station is a skid-mounted fuel station that is perfect for mobile oil supply. It is made from high-quality carbon steel and is equipped with a self-priming pump that can deliver a flow rate of 50m<sup>3</sup>/h. The tank shape is cuboid, which provides a space-saving design that is easy to transport and install. The station is available in a range of customized colors, making it an ideal choice for businesses that want to maintain a consistent visual identity.

#### Features:

Product Name: Container Fuel Station (also known as a Mobile Oil Supply Station or container gas station)

Capacity: 50m<sup>3</sup>

Color: Customized

Tank Type: Horizontal

Pump: Self-priming Pump

Material: Carbon Steel

Can be used as a Tank Containerized Refuel Facility

#### Technical Parameters:

Product Name	Mobile Oil Supply Station
Material	Carbon Steel
Color	Customized
Tank Length	11600mm
Flow Rate	50m <sup>3</sup> /h
Capacity	50m <sup>3</sup>
Tank Shape	Cuboid
Tank Diameter	2700mm
Tank Accessories	Manhole Cover, Emergency Valve, Level Gauge, Discharge Valve
Tank Surface Treatment	Sandblasting, Painting
Tank Type	Horizontal
Additional Information	This product is a skid-mounted fuel station.

#### Applications:

Whether you are a construction company that requires fuel on different job sites, a mining company that operates in remote locations, or a disaster relief organization that needs a quick and reliable source of fuel, the Virette Container Fuel Station is the perfect solution.

With its tank length of 11600mm, flow rate of 50m<sup>3</sup>/h, and tank diameter of 2700mm, the Virette Container Fuel Station is capable of holding a large amount of fuel and dispensing it quickly and efficiently. Additionally, the customizable color options allow for branding and personalization.

The Virette Container Fuel Station comes equipped with all the necessary tank accessories, including a manhole cover, emergency valve, level gauge, and discharge valve. These features ensure the safety and functionality of the fuel station.

One of the key benefits of the Virette Container Fuel Station is its mobility. It can be easily transported to different locations, making it an ideal choice for businesses or organizations that operate in multiple areas. This makes it a perfect option for construction companies that need to move from one job site to another.

In addition to its mobility, the Virette Container Fuel Station is also a great choice for disaster relief organizations. In times of crisis, it can be difficult to find a reliable source of fuel. The Virette Container Fuel Station can be quickly deployed to provide fuel to those in need. Overall, the Virette Container Fuel Station is a versatile and reliable mobile oil supply station that can be used in a variety of occasions and scenarios. Its advanced features and mobility make it an ideal choice for businesses, organizations, and individuals who require a quick and efficient source of fuel.

### Customization:

Looking for a customizable Tank Containerized Refuel Facility that can be easily transported to your desired location? Look no further than the Virette brand, originating from China. With a capacity of 50m<sup>3</sup> and a horizontal tank type, this Portable Fuel Supply Station is perfect for fueling up on the go. The tank is constructed with a 14mm thickness and treated with sandblasting and painting to ensure durability and longevity. With a flow rate of 50m<sup>3</sup>/h, this fuel station is sure to meet your needs. Contact us today to discuss further customization options.
