

4M Hose Gas Dispenser Pump 1000L Automated Oil Dispensing System

Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Working Pressure: 0.2 MPa
- Automatic Nozzle: TD-20A
- Hose: 3/4" 4M
- Vacuum: 0.04Mpa
- Application: Petro, Diesel Etc
- Tank: 1000L
- Flow Rate: 5-50L/Min Or 5-90L/Min
- Delivery Rate: 5 ~ 90L/min; 90~150L/min; 150~250L/min
- Highlight: **gas dispenser pump 1000l,
1000l automated oil dispensing system,
4m hose gas dispenser pump**

Product Description

1000L Single Stage Electric Fuel Dispenser Gasoline Dispenser

Product Description:

Our Fuel Dispenser is designed to work under a working pressure of 0.2 MPa, with a vacuum of 0.04Mpa, making it the perfect choice for fueling your vehicles quickly and efficiently. The dispenser is equipped with a high-quality pump that ensures high-speed fueling, making it an ideal choice for busy fueling stations.

The Fuel Dispenser uses a voltage of 220VAC, making it compatible with most standard electrical outlets. It is easy to install and use, with simple controls that allow you to dispense fuel with ease. The dispenser is designed to be durable and long-lasting, making it a smart investment for your fueling station.

Our Fuel Dispenser is designed to meet the highest industry standards, ensuring that it is safe and reliable to use. It is perfect for use in busy fueling stations, allowing you to fuel multiple vehicles quickly and easily. The dispenser is also designed to be easy to maintain, with simple parts that can be easily replaced if needed.

In summary, our Fuel Dispenser is the perfect choice for any Gasoline dispenser or Fueling Station Dispenser. It features a Single-stage Pump structure, works with lubricating oil, and has a working pressure of 0.2 MPa and vacuum of 0.04Mpa. It runs on 220VAC voltage, making it easy to use and install. With its high-quality pump and durability, it is a smart investment for any fueling station looking to upgrade its equipment.

Features:

Product Name: Fuel Dispenser

Flow Rate: 5-50L/Min Or 5-90L/Min

Vacuum: 0.04Mpa

Application: Petro, Diesel Etc

Working Pressure: 0.2 MPa

Tank: 1000L

The Fuel Dispenser is a reliable, high-quality fueling station dispenser that provides accurate and efficient fuel dispensing. This petrol dispensing machine is designed to meet the demands of a busy gas station, with a flow rate ranging from 5-50L/Min or 5-90L/Min. The gasoline dispensing system features a vacuum of 0.04Mpa, and is suitable for use with petro, diesel, and other fuels. With a working pressure of 0.2 MPa and a 1000L tank, this fuel dispenser is the ideal choice for any fueling station.

Technical Parameters:

Product	Diesel fuel dispenser
Flow Rate	5-50L/Min or 5-90L/Min
Working Pressure	0.2 MPa
Register Range	0.00~999999.99 L
Temperature	-40~55°C
Structure	Single-stage Pump
Hose	3/4" 4M
Delivery Rate	5 ~ 90L/min; 90~150L/min; 150~250L/min
Medium	Lubricating Oil
Automatic Nozzle	TD-20A

Applications:

The Fuel Dispenser is designed to register range of 0.00~999999.99 L, which makes it ideal for different types of applications. The delivery rate of the product ranges from 5 ~ 90L/min; 90~150L/min; 150~250L/min, which makes it suitable for various scenarios.

This Fuel Dispenser product can be used in different occasions and scenarios. It is ideal for gas stations, petrol pumps, and other fuel dispensing stations. The product is suitable for one product or two products, which makes it flexible and efficient to use. The Fuel Dispenser product is easy to install and can be used by anyone.

The Fuel Dispenser product is ideal for busy petrol stations as it can handle large volumes of fuel dispensing. It is also suitable for small petrol stations that require efficient and reliable petrol dispensing machines. The product is designed to ensure accuracy, safety, and efficiency.

In conclusion, Virette Fuel Dispenser is a reliable and efficient product that is suitable for different applications. The product is designed to meet the needs of different petrol stations and petrol dispensing machines. It is an ideal choice for anyone who wants to invest in a high-quality fuel dispenser product.

Customization:

For customized product requirements, please contact us for product customization services that will meet your specific needs. We are committed to providing the best customization services that will satisfy your requirements for the fuel dispenser.

Packing and Shipping:

Product Packaging:

The fuel dispenser will be securely packaged in a cardboard box with foam padding to prevent any damage during transit.

All necessary accessories and user manuals will be included in the package.

Shipping:

The fuel dispenser will be shipped via a trusted courier service to ensure timely and safe delivery.

The shipping cost will be calculated based on the destination and weight of the package.

A tracking number will be provided to the customer to track the status of their shipment.

Please allow 3-5 business days for processing and handling before the item is shipped.
