

NPT2 Outlet Fuel Pump With 30 Minute Duty Cycle And Built In Filter

Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: f0

Product Specification

- Warranty: 1 Year
- Duty Circle: 30 Min
- Sealing Ring Included: Yes
- Outlet: NPT2"
- Inlet Type: Strainer
- Compatibility: Universal
- Type: Electric
- Engine: Diesel Fuel Engine Parts
- Highlight: **NPT2 Outlet Fuel Pump,
30 Minute Fuel Pump Duty Cycle**

Product Description

Product Description:

The Fuel Pump comes with a Sealing Ring Included, which ensures that the fuel is securely contained within the pump during operation. This is particularly important when transferring flammable liquids such as gasoline or diesel fuel.

The Fuel Pump is designed for a Duty Circle of 30 Min, which means that it is capable of continuous operation for up to 30 minutes at a time. This makes it ideal for use in busy fueling stations where there is a constant flow of vehicles needing to be fueled.

The Inlet Type of the Fuel Pump is a Strainer, which helps to filter out any impurities in the fuel before it enters the pump. This helps to ensure that the fuel is clean and free from any contaminants that could potentially damage the vehicle's engine.

It is important to note that the Fuel Pump does not come with a Sending Unit Included. This means that a separate sending unit will need to be purchased if fuel level monitoring is required.

In summary, the Fuel Pump is an essential component of any Petroleum Transfer Station, Filling Station Dispenser, or Fuel Dispensing Pump. With its reliable and efficient Electric operation, Sealing Ring Included, Duty Circle of 30 Min, and Inlet Type of Strainer, the Fuel Pump is a must-have for any busy fueling station.

Features:

Product Name: Fuel Pump

Type: Electric

Outlet: NPT2"

Duty Circle: 30 Min

Sending Unit Included: No

Sealing Ring Included: Yes

Features of the Fuel Pump:

Provides efficient and reliable electric fuel delivery

Ideal for use in a Filling Station Dispenser

Outlet size of NPT2"

Duty cycle of 30 minutes

Comes with a sealing ring for easy installation and secure fit

Sending unit not included

Technical Parameters:

Product Attribute	Value
Product Type	Automotive Fuel Supply Device
Engine Type	Diesel Fuel Engine Parts
Outlet	NPT2"
Inlet Type	Strainer
Float Included	Yes
Sealing Ring Included	Yes
Sending Unit Included	No
Type	Electric
Duty Circle	30 Min
Weight	15Kgs
Warranty	1 Year
Product Use	Diesel Fuel Injector, Gasoline Transfer Pump

Applications:

The Virette f0 Fuel Pump is compatible with a wide range of vehicles and machinery, making it a universal choice for all your refueling needs. The inlet type is a strainer, which filters out any impurities in the fuel, ensuring a smooth and efficient transfer process.

Whether you're a farmer looking to refuel your tractors or a truck driver filling up at the gas station dispenser, the Virette f0 Fuel Pump is the perfect solution. Its duty cycle of 30 minutes ensures that you can complete your fuel transfer quickly and efficiently, without having to worry about the pump overheating or malfunctioning.

The Virette f0 Fuel Pump also comes with a sealing ring included, ensuring a tight and secure seal between the pump and the fuel tank. This feature helps to prevent any leaks or spills during the transfer process, keeping you and your equipment safe.

In conclusion, the Virette f0 Fuel Pump is a reliable and high-quality gasoline transfer pump that is perfect for a wide range of refueling needs. Its compatibility with a variety of vehicles and machinery, coupled with its durability and efficiency, make it the ideal choice for farmers, truck drivers, and anyone else in need of a reliable fuel transfer solution.

Customization:

Customize your Virette f0 Fuel Pump:

Brand Name: Virette

Model Number: f0

Place of Origin: China

Outlet: NPT2"

Sending Unit Included: No

Duty Circle: 30 Min

Engine: Diesel Fuel Engine Parts

Weight: 15Kgs

Our product customization services include:

Customized Liquid Fuel Dispenser

Customized Diesel Fuel Injector

Customized Petrol Pumping Unit

Packing and Shipping:

Product Packaging:

This fuel pump is packaged in a sturdy cardboard box with protective foam inserts to prevent damage during shipping. The box measures 10 inches in length, 6 inches in width, and 8 inches in height. The product is labeled with the product name, model number, and manufacturer information.

Shipping:

The fuel pump will be shipped via standard ground shipping within 1-2 business days after the order is placed. Shipping is available within the United States only. Customers will receive a confirmation email with tracking information once the product has shipped. Transit time will vary depending on the destination, but typically takes 5-7 business days.
