

Lightweight Auto Fuel Nozzle 5.5 Inches Automatic Diesel Nozzle

Our Product Introduction

For more products please visit us on refueling-equipment.com

Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Features: Trigger Lock, Splash Guard, Automatic Shut-off
- Flow Rate: 10 Gallons Per Minute
- Size: 5.5 Inches
- Warranty: 1 Year Limited Warranty
- Model: 11A
- Temperature Rating: 0-150 Degrees Fahrenheit
- Quality: Guranteed
- Nozzle Diameter: 1 Inch
- Highlight: **lightweight auto fuel nozzle, auto fuel nozzle 5.5 inches, 5.5 inches automatic diesel nozzle**

Product Description

Sunbeam 11A Lightweight Diesel Fuel Nozzle with Auto Shutoff

Product Description:

Our fuel nozzle comes with a 10 feet hose length, ensuring that it is long enough to reach any fuel tank. The hose is made of durable materials, so it can withstand the harsh conditions of any worksite. With its sturdy construction, it can handle the toughest jobs and last for years to come.

The stamp number of our fuel nozzle is Dlla150s187, which ensures that it is of the highest quality. Our nozzle is made in compliance with strict industry standards, and our products are tested to guarantee their quality. You can trust our fuel nozzle to provide accurate and reliable flow every time.

Our fuel nozzle has a temperature rating of 0-150 degrees Fahrenheit, which makes it suitable for use in a wide range of temperatures. Whether you are working in hot or cold conditions, our nozzle will perform flawlessly. You can rely on our fuel nozzle to get the job done, no matter the weather.

The nozzle diameter of our fuel nozzle is 1 inch, which ensures that the flow is accurate and efficient. Our nozzle is designed to prevent leaks and spills, which means that you can deliver fuel with confidence. You can trust our fuel nozzle to provide a safe and efficient way to deliver fuel.

Our fuel nozzle comes with a guarantee of quality, so you can be confident in your purchase. We stand behind our products and are committed to providing the best customer service possible. If you have any questions or concerns about our fuel nozzle, please do not hesitate to contact us.

Features:

- Product Name: Fuel Nozzle
- Flow Rate: 10 Gallons Per Minute
- Stamp Number: Dlla150s187
- Quality: Guaranteed
- Size: 5.5 Inches
- Nozzle Diameter: 1 Inch

This Fuel Nozzle product is a high-quality Gas Pump Spout designed to deliver a consistent and efficient flow of petroleum. It has a Flow Rate of 10 Gallons Per Minute and a Nozzle Diameter of 1 Inch. The Stamp Number for this product is Dlla150s187 and its size is 5.5 Inches. Quality is guaranteed, making it a reliable choice for your fueling needs.

Technical Parameters:

Product Attribute	Value
Product Name	Fuel Nozzle
Size	5.5 Inches
Pressure Rating	50 Psi
Component	Fuel Injection Device
Model	11A
Certifications	UL, CSA, CE
Nozzle Diameter	1 Inch

Temperature Rating	0-150 Degrees Fahrenheit
Stamp Number	D11a150s187
Hose Length	10 Feet
Quality	Guaranteed
Product Description	The Fuel Nozzle is a gas pump spout or oil delivery spout that is designed as a fuel injection device. It has a pressure rating of 50 Psi and a nozzle diameter of 1 inch. It is certified by UL, CSA, and CE and has a temperature rating of 0-150 degrees Fahrenheit. The stamp number is D11a150s187 and it comes with a 10 feet hose. Quality is guaranteed.

Applications:

The Fuel Nozzle has a flow rate of 10 gallons per minute, making it efficient and time-saving for users. The nozzle diameter is 1 inch, which is compatible with most gas pump spouts. The hose length is 10 feet, providing enough length for users to access hard-to-reach fuel tanks.

The Virette Fuel Nozzle has a pressure rating of 50 psi, ensuring that it can handle a range of fueling needs. It is suitable for use with a variety of fuels, including gasoline, diesel, and kerosene. It is a versatile tool that can be used in various settings, such as gas stations, farms, construction sites, and more.

Some scenarios where the Virette Fuel Nozzle can be used include:

Gas station fueling: This product is compatible with most gas pump spouts, making it a suitable tool for fueling up at gas stations. It can handle a range of fuel types and is efficient in delivering fuel quickly.

Farm fueling: The Fuel Nozzle can be used for fueling up farm equipment such as tractors, harvesters, and more. Its long hose length makes it easy to access fuel tanks on larger machinery.

Construction site fueling: The Virette Fuel Nozzle is also suitable for fueling up construction vehicles and equipment. Its durable construction ensures that it can withstand the harsh conditions of a construction site.

In conclusion, the Virette Fuel Nozzle is a high-quality and efficient tool for fueling up vehicles, machinery, and equipment. Its compatibility with most gas pump spouts, long hose length, and durability make it a versatile tool suitable for a range of scenarios.

Customization:

Customize your Virette Fuel Injection Device with our product customization services. Made in China with the highest quality standards, this fuel nozzle is a must-have for any gasoline hose nozzle, petroleum flow nozzle, or oil delivery spout. With a nozzle diameter of 1 inch and a flow rate of 10 gallons per minute, this product is perfect for your fuel dispensing needs.

The stamp number D11a150s187 and model 11A ensure the authenticity of your Virette Fuel Injection Device. Contact us today to customize your fuel nozzle to your exact specifications and needs.

Packing and Shipping:

Product Packaging:

The Fuel Nozzle product will be packaged securely in a cardboard box with cushioning materials to prevent any damage during transportation. The box will also include a user manual and any necessary accessories.

Shipping:

The Fuel Nozzle product will be shipped via a reliable courier service to ensure timely and safe delivery. Shipping times will vary depending on the destination, but customers can track their package using the provided tracking number.
