

Ultra Precise Fuel Unloading Flow Meter DN80 With ATEX IECEx Approval

Our Product Introduction

For more products please visit us on refueling-equipment.com

Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: T-80
- Minimum Order Quantity: 10 pcs
- Price: 1680USD
- Delivery Time: 20 days

Product Specification

- Accuracy: $\pm 0.2\%$
- Keyword: Fuel Unloading Flow Meter
- Repeatability: $\pm 0.02\%$
- Size: DN80
- Color: Silver
- Certifications: ATEX, IECEx, FM
- Ambient Temperature: $-30^{\circ}\text{C} \sim 60^{\circ}\text{C}$
- Rate: $8-80\text{M}^3 / \text{H}$ (130-1300L / Min)
- Highlight: **Ultra Precise Fuel Unloading Flow Meter,
DN80 Fuel Unloading Flow Meter,
ATEX Fuel Unloading Flow Meter**

Product Description

Ultra Precise Liquid Flow Measuring For Industrial Unleashing Fuel Unloading Flow Meter

Product Description:

Our Fuel Discharge Flow Meter is certified by ATEX, IECEx and FM, ensuring that it meets the highest safety standards in the industry. This certification means that our flow meter is suitable for use in hazardous areas, making it the perfect choice for any fuel unloading operation.

The LCD screen on our Fuel Discharge Flow Meter features an English interface, making it easy to use for operators who speak English. The 7 digits display ensures that readings are accurate and easy to read, even in low light conditions.

With an accuracy of $\pm 0.2\%$, our Fuel Discharge Flow Meter is one of the most accurate flow meters on the market. This accuracy ensures that you can rely on our flow meter to provide you with accurate readings, even in the most demanding fuel unloading operations.

Overall, our Fuel Discharge Flow Meter is a reliable and accurate solution for measuring the flow of fuel during gravity fuel unloading operations. With its certifications, LCD screen, and accuracy, this flow meter is the perfect choice for any fuel management system.

Features:

Product Name: Flow Meter

Medium: GASOLINE, DIESEL, KEROSENE, ETHANOL GASOLINE AND OTHER OIL PRODUCTS

Certifications: ATEX, IECEx, FM

Color: Silver

Repeatability: $\pm 0.02\%$

Keyword: Fuel Unloading Flow Meter

Introducing our Gravity Fuel Unloading Flow Meter, perfect for accurately measuring the flow of fuel during discharging. This Fuel Discharge Flow Meter is compatible with GASOLINE, DIESEL, KEROSENE, ETHANOL GASOLINE AND OTHER OIL PRODUCTS, making it versatile for various applications. It is certified with ATEX, IECEx, FM, ensuring safety and reliability. The Flow Meter is designed in a sleek silver color and boasts a repeatability of $\pm 0.02\%$. Trust our Gravity Fuel Unloading Flow Meter for precise and dependable fuel measurement.

Technical Parameters:

Lcd Screen	ENGLISH INTERFACE, 7 DIGITS DISPLAY
Color	Silver
Protection Rating	IP65
Certifications	ATEX, IECEx, FM
Medium	GASOLINE, DIESEL, KEROSENE, ETHANOL GASOLINE AND OTHER OIL PRODUCTS
Keyword	Fuel Discharge Flow Meter, Fuel Unloading Flow Meter, Gravity Fuel Unloading Flow Meter
Accuracy	$\pm 0.2\%$
Ambient Temperature	-30°C~60°C
Repeatability	$\pm 0.02\%$
Size	DN80

Applications:

The Virette T-80 Fuel Discharge Flow Meter is widely used in oil depots, gas stations, and other fuel transportation or storage facilities. This Flow Meter is designed to withstand harsh environmental conditions, with a protection rating of IP65 and an ambient temperature range of -30°C~60°C.

The Virette T-80 Fuel Unloading Flow Meter is manufactured in China and requires a minimum order quantity of 10 pcs. The price of this product is 1680USD, and the delivery time is 20 days.

The Virette T-80 Fuel Unloading Flow Meter is perfect for measuring the flow of fuel during unloading operations. The high accuracy of this Flow Meter ensures that the exact amount of fuel is delivered to the destination, thereby reducing the risk of overfilling or underfilling. The Virette T-80 Fuel Discharge Flow Meter is also suitable for use in fuel trucks and fuel tankers. This Flow Meter can accurately measure the amount of fuel dispensed during delivery, ensuring that the correct amount of fuel is delivered to the customer.

Overall, the Virette T-80 Gravity Fuel Unloading Flow Meter is a reliable and efficient instrument that is suitable for various applications in the oil and gas industry. With its high accuracy, repeatability, and durability, this Flow Meter is a must-have for anyone involved in the transportation or storage of fuel.

Packing and Shipping:

Product Packaging:

One Flow Meter device

Instruction Manual

Mounting Bracket
Screws and Nuts
Shipping:
Ships within 1-2 business days
Free standard shipping within the US
International shipping available
Shipping cost calculated at checkout
