

LCD Display LNG Gas Dispenser LNG-1000 High Accurate

Our Product Introduction

For more products please visit us on refueling-equipment.com

Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: LD-1
- Minimum Order Quantity: 1 set
- Delivery Time: 20 days

Product Specification

- Flow Rate: (1~80) Kg/min
- Model: LNG-1000
- Display: LCD
- Ambient Humidity: 30%~90%
- Rated Working Pressure: 16MPa
- Rating Power: <100W
- Dispensing Flow Rate: 50L/min
- Temperature Range: -40°C To 50°C
- Highlight: LCD Display LNG Gas Dispenser ,
LNG-1000 LNG Gas Dispenser ,
High Accurate LNG Gas Dispenser

Product Description

Product Description:

The model number for this dispenser is LNG-1000, which is a high-quality unit that is designed to be durable and reliable. It has a rated working pressure of 16MPa, ensuring that it can handle the demands of frequent use. This dispenser is suitable for use in a variety of settings, including gas stations, fleet maintenance facilities, and industrial sites.

The gas-filling preset range of the LNG Gas Dispenser is 1~9900 Kg, which means that it can dispense a wide range of volumes to meet the needs of different vehicles and storage tanks. This feature makes it a versatile piece of equipment that can be used in a variety of applications.

The LNG Gas Dispenser can be powered by either AC220V or DC24V, depending on the specific needs of the user. This means that it can be easily integrated into existing electrical systems, and it is designed to be easy to operate and maintain.

Overall, the LNG Gas Dispenser is a high-quality, precision instrument that is designed to accurately dispense liquefied natural gas to vehicles and storage tanks. Its accuracy rating, model number, rated working pressure, gas-filling preset range, and power supply options make it a versatile piece of equipment that can be used in a variety of applications. Whether you are running a gas station, fleet maintenance facility, or industrial site, the LNG Gas Dispenser is a reliable and efficient tool for dispensing LNG.

Applications:

One of the key features of the Virette LD-1 is its gas-filling preset range, which allows for precise fuel dispensing that can be customized to meet the needs of any operation. Whether you are filling up a small car or a large commercial vehicle, this fuel dispensing pump can handle the job with ease.

The Virette LD-1 is also equipped with a high-tech LCD display that makes it easy to monitor fuel levels and keep track of usage. This feature is particularly useful for businesses that need to keep detailed records of their fuel consumption and usage patterns.

With both AC220V and DC24V power supply options, the Virette LD-1 is a versatile and flexible solution for a wide range of different applications. Whether you need to fuel up a fleet of vehicles or simply provide fuel for a single piece of equipment, this liquid fuel dispenser is up to the task.

In terms of delivery time, the Virette LD-1 can typically be shipped within 20 days of placing your order. And with a minimum order quantity of just one set, it's easy to get started with this powerful and reliable fuel dispensing pump.

Overall, the Virette LD-1 LNG Gas Dispenser is an excellent choice for businesses that require a high-quality, easy-to-use fuel dispensing solution. Whether you are looking to fuel up cars, trucks, or heavy equipment, this gasoline infusion machine is sure to deliver top-notch performance every time.

Customization:

Our diesel fuel injector is powered by AC220V or DC24V and has a temperature range of -40°C to 50°C, making it a reliable and efficient gasoline infusion machine. We guarantee a delivery time of 20 days, ensuring timely arrival for all your fuel dispensing needs.

Support and Services:

The LNG Gas Dispenser product technical support and services include:

- Assistance with installation and commissioning
- Training for operators and maintenance personnel
- Troubleshooting and diagnosis
- Repair and maintenance services
- Spare parts and consumables supply
- Software updates and upgrades
- Technical documentation and manuals
- Customer service and support
